

To: The Residents of Columbia and Montour Counties
RE: Emergency Responder Safety and COVID-19

We are requesting anyone calling 911 for assistance to advise the Telecommunicators if they have been exposed to or are infected with The Coronavirus (COVID-19). The reason for this request is to protect the Emergency Responders answering the calls. Regardless if you need Police, Fire or EMS Services this information is vital to keep those on the frontlines safe and healthy.

We thank you for your support and cooperation in these very unprecedented times.

The Columbia County Commissioners

Jennifer L Long
